- Flights, visas, pre/post hotel stays and transfers, and travel associated fees
- Travel and dive Insurance – Mandatory
- Marine park fees including port clearances, ranger fees, anchorage charges and village donations
- Dive rental equipment, nitrox, 15 litre tanks, courses
- Private dive / snorkel guides
- Soft drinks, wine and beer (available and payable onboard)
- La Galigo merchandise
- Crew gratuities (many of our guests base their tips around 10% of the cost of the trip).
- Tipping is optional but greatly appreciated!
- Possible fuel surcharges may be applied, based on global prices (may fluctuate with markets) We will advise up to 30 days prior ahead of your trip of the extra fuel allowance of no more than US \$ 20 per person per day.

HOW TO GET TO KOMODO

Traveling to Komodo National Park is simpler than you might think which makes diving these waters a fantastic option.

Your dive trip to Komodo National Park starts with your international flight arrival to either Jakarta (CGK) or Bali (DPS). Please note that many international flights have arrive in the evening and an overnight hotel stay is required or spend a few days to relax.

From Bali (DPS) To Labuan Bajo (LBJ)

It is a quick non-stop 1 hour flight to the town of Labuan Bajo, which serves as the main gateway to all Komodo trips.

From Jakarta (CGK) To Labuan Bajo (LBJ)

Jakarta is the main international airport for Indonesia and also offers non-stop flights to Labuan Bajo. A flight from Jakarta to Labuan Bajo is approximately 2 hours and 30 minutes. Travelers will find the best flight options and times are with the following airlines:

Garuda – Indonesia's national airline and is a Skyteam Alliance Partner

Lion Air

Batik Air

Air Asia

DAY 1

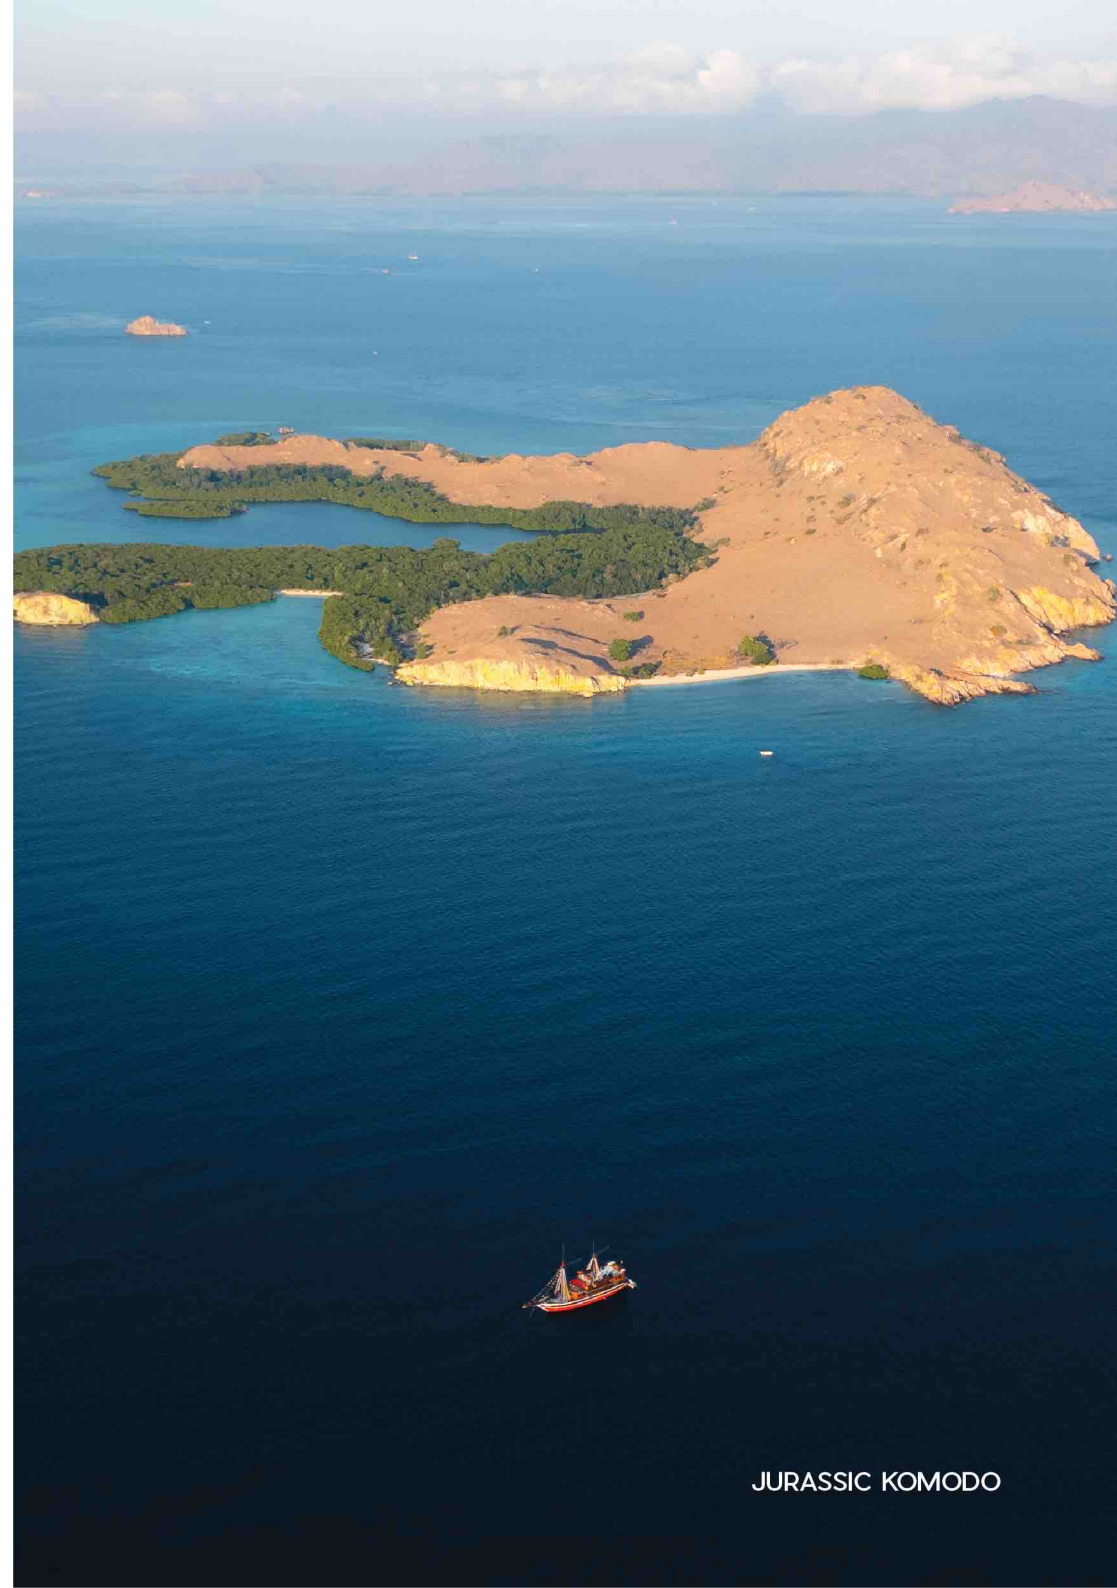

LABUAN BAJO

Welcome to La Galigo!

We will collect you from your hotel or Labuan Bajo airport between 8:00 – 9:00 A.M. on the day of departure to welcome you onboard La Galigo. After a refreshing welcome drink, a quick breakfast, and a safety briefing of our vessel, we aim to anchor up around 10:00 A.M. from Labuan Bajo.

After around 2 hours of sailing, we will arrive at our first destination, the islands of Sebayur Kecil and Sebayur Besar, where we will conduct 2 dives after lunch. We have identified Sebayur as a fantastic, calm introduction for your first day in the park.

These two great little islands are well sheltered from the infamous currents around Komodo, allowing you a great opportunity to practice using your SMB, cameras, dive computers, or just to get back into the swing of things after a lengthy layoff from diving.

JURASSIC KOMODO

DAY 2

WEST KOMODO

After a morning dive at stunning Tatawa Besar, we go in search of Manta rays at the world-class dive site Manta Point (known to the locals as Karang Makassar). After lunch, we will head to one of the highlights of Komodo diving – Batu Bolong, which presents us a chance to see large pelagic species such as Giant Trevally and Barracuda, as well as sharks and Napoleon Maori Wrasse.

Later that afternoon, we set sail for the northwest part of Komodo, for a light trek on the island of Gili Lawa Darat, to witness an amazing Komodo sunset, dipping behind the nearby active volcano of Sangeang. For the night dive, we will stay in the bay close to the trekking area, and dive at the site Stranger Things, for a chance to get your first glimpse of macro life in the national park.

DAY 3

NORTHWEST KOMODO

Day three is our personal favourite in terms of diving, and all three of the dives normally conducted on this day are what we would consider unforgettable.

The morning is spent on both Crystal Rock and Castle Rock, two submerged pinnacles that are home to an abundance of marine life. Teams of hunting Giant and Big-Eye Trevally patrol the blue waters of the reefs, chasing large schools of smaller fish. Eagle Rays glide effortlessly in the currents whilst the reef sharks hunt for their next meal.

The afternoon sees us visit the legendary dive site known as The Cauldron (a.k.a The Shotgun). Famous for its rip-roaring drift dive, it is akin to an underwater rollercoaster that needs to be experienced to be believed, and a 'bucket list' dive site for divers from across the world. Hold on until the end of the dive for a big surprise The night dive will be spent diving on Komodo Bay, depending on mooring conditions.

JURASSIC KOMODO

DAY 4

SOUTHWEST KOMODO

We wake early in the morning to take in one of Komodo's world-class golden sunrises, followed by one of its best dive sites, the Golden Passage which is a drift dive that offers outstanding coral reef topography, as well as encounters with schools of Sweetlips and Snappers, White Tip Reef Sharks and the occasional passing Manta Ray.

During breakfast, La Galigo will anchor up and head south into the centre of the park, where we will endeavour to dive Police Corner if conditions are favourable, one of the less-known sites in central Komodo. In the afternoon we plan to visit the island of Mauan, where mantas come to visit its cleaning station.

Up next is Siaba Besar, a fantastic night dive for the macro photographer, where it is possible to encounter Flamboyant Cuttlefish, Ghost Pipefish, various types of Nudibranchs, as well as the elusive Wunderpus and Blue-Ringed Octopus!

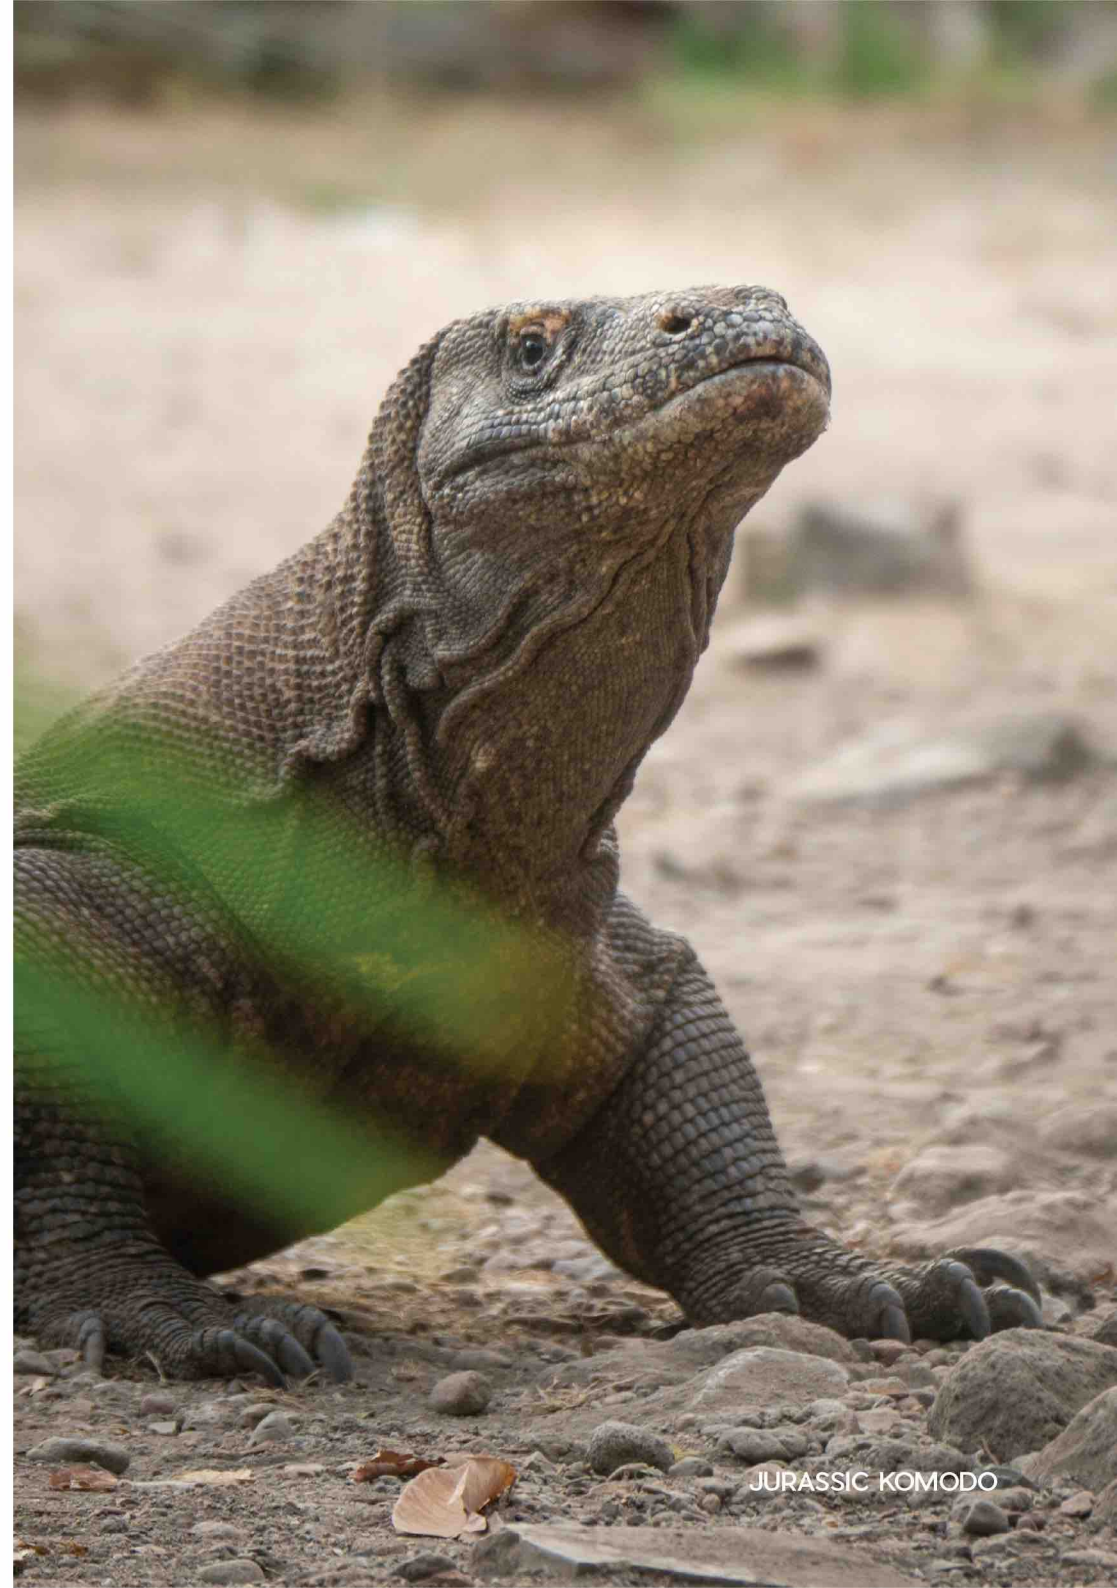

DAY 5

KOMODO ON FOOT

Today we take to land to discover Komodo's world-renowned sites.

After the morning dive and a hearty breakfast, we visit Rinca Island home to the legendary Komodo dragons in their natural habitat. Please note that closed-toed shoes are required, sandals are not permitted. We'll continue onto the world-renowned Pink Beach a gorgeous, shallow coral garden with schools of sweetlips and other colourful reef fish.

Pulau Kalong is the perfect ending to our Jurassic Komodo trip where at sunset we witness thousand of fruit bats take to the skies in search of food. Sit back, relax and enjoy time spent with your new dive buddies as our crew arranges an a'la BBQ banquet on the top deck.

JURASSIC KOMODO

DAY 6

DISEMBARK IN LABUAN BAJO

La Galigo will be anchored up in the morning around 2:00 A.M. in Labuan Bajo, in preparation for you to catch your flight, or check in to your hotel.

Guests are welcome to stay onboard until 11:00 A.M., during which we have the chance to exchange trip images, and contacts so you can keep in touch with newfound dive buddies while we assist you with transportation to your desired location.
