

Raja North 7d/6n

Day 1

Our meeting point is at the Marina Star Café in Sorong Harbour at 7:30am, where we'll have a coffee or tea and wait for all our guests to arrive.

Once everyone is ready we'll then get on our speedboats and board Jelajahi Laut.

While enjoying a fresh juice or coconut, we'll hold a welcome briefing, followed by a general safety briefing and explanation of the boat, and all crew and guests will introduce themselves, so everyone starts to get to know each other.

As the boat sets off towards Waisai you'll put your belongings in your cabins, and we'll set up the diving area, followed by a light lunch and soon after, at around 3pm we'll do check dive, on the slopes of Mioskon Island.

The rest of the afternoon will be spent on the boat, and we'll have plenty of time to really get to know our fellow travellers and enjoy a beautiful sunset, while the captain navigates to the northern parts of Batanta Island.

Day 2

Today it's an early wake up, with fresh brewed coffee or a cup of tea for the first dive briefing of the day while the crew is busy in the diving area making sure everything is ready before we gear up.

The plane wreck lying at 30m depth below the surface is a part of history of Raja Ampat, as Max Ammer was looking for its remains when he realized how beautiful this area was for diving.

For our next 2 dives, we'll be on the lookout for Manta Rays and sharks, in places called Dayan, Karang Bata or Bibis - it all depends on tides and conditions, no two trips are ever the same. It's really important for us to tailor our trips to the expectations of our guests, so we try our best to find what you are looking for.

Day 3

Behind us lays 3 hours of travelling, and we now find ourselves between the Fam island group – we're sure you've heard of My Reef, Melissa's Garden, Batu Rufus, Barracuda Rock and the viewpoint of Piaynemo.

At these sites you can see hunting Giant Trevallies, Rainbow Runners, Pygmy Seahorses, Hairy Squat Lobsters, never ending Staghorn Coral fields and a wall that seems to go on forever.

The climb to the viewpoint seems harder than it is, once we reached the top, you'll be speechless and can soak in one of the most beautiful views you can imagine, over this little paradise.

We'll be in this area for 2 days, making perfectly timed jumps at these sites according to the tides, to make sure we get the best out of it and plenty of fish action.

Day 4

After a late sailing, we'll reach a bit further north in the marine park - Wofoh Island is a great way to start the day with a beautiful wall dive and shallow reef, where we'll be hunting for macro and nudibranchs.

Later we'll head even further north, where we have a few different options for dives. One of our favourites is definitely Chanel no. 5, a combination of slope, wall and some overhangs and small caves.

On this dive site the chances for Eagle Rays are really high, and the occasional family of dolphins have been spotted.

For the afternoon there is the option to visit a traditional fishing village or another dive, before we go for one of the best night dives of Raja Ampat, on the jetty of the Pearl Farm, hidden inside a lagoon.

Day 5

Today our day will be spent around the island of Kawe, where we're going to jump at Eagle Rock first, then head to Black Rock and as our third dive, Eagle Rock again, but as the tides have changed, it's a completely different dive site.

We're looking for Manta Rays, Sharks, Fusiliers, GTs, and bushes of Black Coral at these dive sites - depending on the moon, tides here can be strong, so we'll plan the dives according to your preference!

We do love some pumping current and big action, but we'll let you decide which degree you're comfortable with to enjoy the dive properly.

Day 6

Today we're going back to the Dampier strait, getting ready to dive some astonishing reefs once again.

The abundance in Raja Ampat makes it easy to choose from a big variety of sites, depending on what you like.

On the plan we have Cape Kri, Sardine Reef and Mike's Point, but we can also jump on Chicken Reef, Blue Magic or LauLau which are all a short distance from each other.

After our third dive, we'll hop over to the Island where it all started, Mioskon, to enjoy some beers and a beach barbeque set up by our amazing Chef.

Day 7

4.30 am wakeup seems hard, but it's worth it.

After tea and coffee and a small breakfast, our speedboats will take us over land, where we'll go for a little hike up a hill in the jungle. With a bit of luck, the red Bird of Paradise can be spotted on top of the trees looking for a mating partner while "singing" above the trees.

We'll then get back on the boat for healthy breakfast, after which it's time to gear up one last time and go for our last dive of the trip. It can be either Blue Magic to look for some more Oceanic Manta Rays and Grey Reef Sharks, or the reef of LauLau with its pinnacle.

After the dive it's time to wash all the gear, pack up, have a tasty lunch, and take some group pictures with all our crew before heading back to Sorong where we can meet up for dinner and go for some pool and karaoke afterwards.

The Itinerary of the trip and dive sites can change due to certain circumstances.

Weather and tides play a big role in safety and planning, which is why the Cruise Director and Captain plan every day accordingly.

For any special requests, please don't hesitate to contact us beforehand or chat with the Cruise Director on the boat.
