

Alor

Alor is located at the eastern Lesser Sunda Islands that run through south eastern of Indonesia. Alor hosts some of the most healthy and diverse corals in Indonesia and has areas of black volcanic sand for specialized scuba diving interests. This piece of heaven has many assets such as its magnificent and well preserved landscapes, its rustic villages and its beautiful white sand beaches and crystal clear waters. Dugong or as we know as Sea Cow is also available to be seen beneath the waters of Alor.
