

Day One

After being welcomed by the team at the airport, guests will travel to the harbor and embark the diving dhoni boat. The diving dhoni will sail north to Waisai/Mioskon. This six-hour cruise takes you past many spectacular islands including the Batantas and Kri as you leave behind the hustle and bustle of everyday life. Be welcomed aboard Scubaspa ZEN to rest and recover from the overnight flight. The spa will open to offer information and reservations for treatments in the evening. Crew introductions and boat briefings will be conducted by the Cruise Managers followed by a welcome dinner at the restaurant.

Day Two

Awake with Mioskon and Waigeo in view and enjoy your first day of diving at Mioskon Reef. The beautiful Mioskon Reef offers a great example of what you can expect from Raja Ampat. Schools of yellow snapper, napoleon wrasse, giant groupers, and wobbegong sharks can be found in Mioskon. Stunning macro life can be seen as well. Continue your underwater exploration at the iconic dive site, Blue Magic. Located between Mioskon and Cape Kri, colorful hard and soft corals are home to everything from the teeniest shrimp to oceanic manta rays. Separated from Friwinbonda by a deep channel, Friwinbonda's north coast cliffs plunge into the ocean to create the spectacular Friwinbonda wall dive and snorkeling site. Wrap up the day with night dive at Tapokren, a sandy slope covered by algae and a good place to see some special critters. After dinner, Scubaspa ZEN will sail to the west towards Gam Island.

Day Three

Gam Island, with its lush and hilly jungle landscape, is famous for its population of birds of paradise. The day's first dive will be at Mayhem, a site known for lots of schooling fish and shark action as well as sightings of wobbegong sharks and pygmy seahorses. Your next dive will be at Citrus Ridge, a long reef covered with many brightly colored soft corals. This site is also an underwater heaven for macro lovers. Enjoy your evening dive at Aljui village jetty, which is also famous for its pearl farm. We will hunt for our favorite nighttime critters on this site, such as toadfish, octopi, and epaulette walking sharks. Your journey will continue north overnight towards Wayag.

Day Four

Picturesque Wayag is a spectacular group of islands and a beautiful site to start your day. Enjoy the chance to dive at Two Hump Rock, a tiny mushroom island easily circumnavigated in one dive, allowing you to see the massive, cavernous overhangs around the entire island and its colourful walls covered with all kinds of nudibranchs and flatworms.

We will visit the legendary dive site Cathedral, which is renowned for its spectacular topography and swim throughs. Wrap up the day with an evening dive at Rangers Jetty black tip reef sharks area. After dinner, the vessel will sail south towards Kawe Island.

Day Five

Awake next to Playnemo, also known as mini Wayag, where some magnificent dive sites are located. You will dive My Reef, a submerged ridge with a wonderful hard coral garden and a hotspot of fish activity. Next, you will dive Melissa's Garden, the most breathtaking patch coral garden in all Raja Ampat. Unusual and large rose-petal coral formations can be seen on this site whilst spotting reef sharks and napoleon wrasse. You will then dive Rufus Island, a large limestone formation with fringing coral reefs and a shallow lagoon. Enjoy an evening dive at Galaxy, another jetty dive site. The vessel will make a short crossing to the east towards Mansuar Island after dinner.

Day Six

Swimming and sunbathing on the beaches, snorkeling, diving and underwater photography in marine-rich coral reefs. Take care not to damage the coral anywhere in these areas which are more likely no-take zones. Exploration by dingy, shore hiking, beachcombing.

Take an adventurous hike to an inland lake opposite Deer Village. Hopefully if you're lucky, somewhere along the way you may witness the dance of the dazzling red bird of paradise, or catch the flapping of passing hornbills, or hear shrieks of the crested cockatoo. To the southwest of Kofiau proper lie a group of flat sandy islands, including Walo where a couple of recognized dive spots await your exploration. There may even

be more.

Day Seven

Wake in Daram, where some of the best diving and snorkeling in all Raja Ampat can be found. Many famous sites can be found here, including Warna Berwarna, Andiamo, and The Candy Store.

Day Eight

Fiabacet islands, located eight nautical miles east of Wayil Batan, is a fantastic area of three small rocks. The reefs here are remarkably healthy and often said to be some of the most beautiful reefs in Raja Ampat. The macro life is flourishing amongst the healthy corals, where you can find many different types of pygmy seahorses and nudibranchs. You can also see the majestic black manta in this area. In the evening, enjoy a night dive at Romeo dive where you can see walking sharks.

Enjoy the new year eve with the special barbecue onboard Scubaspa ZEN Indonesia with the background of the firework rain.

Day Nine

The Wayil Batan area is a 30km wide channel with medium to strong currents. One of the best sites for macro divers is Gorgonian Passage. You will be able to spend a good part of your dive exploring the soft corals to reveal the many creatures that live among them.

Pelee Island aboard the dhoni diving boat. The first dive will be at Kaleidoscope Ridge, one of the best sites in Misool. It is named for the bursts of colour among its soft corals and schools of fish. This is an excellent site to see mobular rays and wobbegong sharks. We will also dive Toblerone, known for its unique swim through and large hard coral gardens.

Day Ten

Awake next to the Farondi Islands with a peaceful sky and warm weather. Farondi's dive sites make many divers' list of favorite sites in Raja Ampat due to their unique and distinctive landscape of tunnels, caverns, and colorful walls. Jellyfish Lake is worth a visit to snorkel with dozens of Jellyfish, though a challenging hike. You may also hike up to the top of the nearby viewpoint for the chance to see Misool's best kept secret, a heart-shaped lake. Tomolol Cave, a collection of water-filled caverns located in an easily accessible depression in the limestone, is another possibility for a land excursion. Near the caves is a series of enigmatic red-ochre paintings high up on an exposed wall of limestone. These cave paintings are estimated to be between three and five thousand years old.

After lunch, the crew will assist you with rinsing your dive gear and retrieving your luggage for packing. The Cruise Managers will be delighted to assist you with final billing. Enjoy farewell cocktails at sunset followed by dinner on your last night exploring Misool before sailing back to Sorong.

Day Eleven

Enjoy your final breakfast in the restaurant. After a farewell from your crew, we will escort you to the airport in advance of your departing flight.
